Dear Mr. Nghiem,

I just wanted to send out a special thanks for your participation on the "Cash Flow" show on the Achieve/Powerhitz Network.

I've interviewed some of the best minds in the world from members of Parliament to Civil Rights leaders and I found that of all the people I have dealt with your perspective was not only unique to the world but hands on as well. I know you have traveled throughout South American and few if any allow themselves to experience the culture like you have. My listeners found your discoveries about the culture to be quite enlightening as well as informative for those going through the financial crisis of today.

Thanks again and I look forward to speaking to you in the future.

Kind regards,
